ISO is a network of national standards institutes from 146 countries working in partnership with international organizations, governments, industry, business and consumer representatives.

MIZE WIRE

P R O D U C T S

This Mize catalog is designed to help guide our customers in the selection of our wire, cable and accessory products, as well as industrial hose products.

However, this catalog does not tell the entire story of Mize Wire, Inc. The manufacturing and distribution of Mize Wire, Inc. products was launched in 1936 by Robert Mize, Sr. From an extremely modest origin, Mize has rapidly expanded sales and service activities that now include the entire Continental United States, Canada, Mexico, Chile, Bermuda, Trinidad, Countries of the United Emirates, Australia, Costa Rica, Puerto Rico and many more. Our executive offices, manufacturing, production and all distribution operations are housed in our modern facilities occupying approximately 60,000 square feet of floor space. Mize Wire, Inc.'s location in "Mid-way USA" minimizes the distribution time to you...our customer.

All Mize products listed in this catalog have been accepted throughout the industry for their quality and reliability in the field. Today, Mize has over eight products patented and manufactures millions of parts per year. New ideas and designs are constantly being researched, developed and market tested to bring you products that are unmatched and unchallenged in quality, reliability and marketability in an every changing market. For merchandise that returns you the highest profits, Mize has it. As you page throughout this catalog, you will notice the Mize line includes a variety of products that have earned us recognition as a company on the move. In today's world, quality, price and service is a must and Mize is committed to give you this and much more. Customer satisfaction is guaranteed.
